

Revolution T-1M

Now we are launching the market's lightest and most material-efficient height adjustable desks. Our new product range is called "Revolution". The series consists of models Y and T where the shape of the legs has given the frame its name.

- Height-adjustable
- Ergonomic

Revolution T is a neat height adjustable desk which makes it possible to create flexible and ergonomic workplaces. Several different choices of products depending on whether you want the desk to be powered by electricity or gas. The size of the desk is large enough to fit a laptop, a notepad, a computer mouse and a table lamp. Everything you need for a good working environment. The electric desk has the possibility of an even larger work surface by increasing the width of the adjustable frame.
