

**NEW!**

Revolution Education-T

Now we are launching the market's lightest and most material-efficient height adjustable desks. Our new product range is called "Revolution". The series consists of models Y and T where the shape of the legs has given the frame its name.

- Height-adjustable
- Ergonomic

The Revolution Education-T is a lightweight and flexible height-adjustable frame designed and tested for the educational environment. A stylish frame with classic T-shaped legs. Switching between standing and sitting positions while working is believed to enhance energy levels and improve general health and well-being, so why not start early already in school. Revolution T-G is a neat height adjustable desk which makes it possible to create flexible and ergonomic workplaces. Several different choices of products depending on whether you want the desk to be powered by electricity or gas. The size of the desk is large enough to fit a laptop, a notepad, a computer mouse and a table lamp. Everything you need for a good working environment. You'll be able to place the Revolution Education T-G wherever you want. It's a gas-powered frame independent of power supply.
